Daniel's Faith

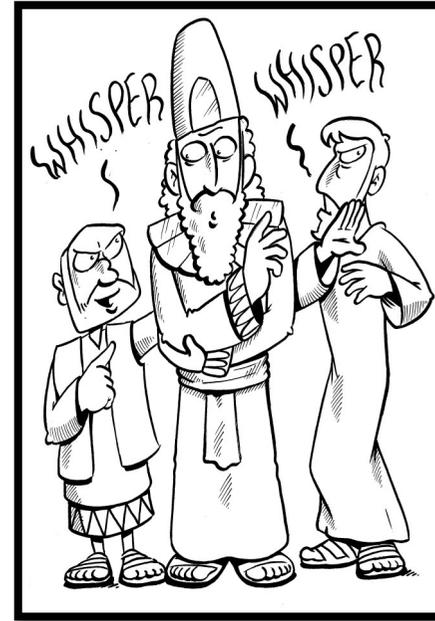

Please don't misunderstand this connection - we are not saying secondary school is like a lions' den - far from it. Moving up to your next school gives you a brilliant opportunity to excel at something, make life-long friends, try new experiences and stretch your brain cells.

Daniel was wise and worked hard, earning himself an important position working for the king. Have a think about this fresh start you will get at secondary school. Will it mean greater determination to do even better? Those things you excel at may lead to career choices.

To Daniel prayer was more important than life itself! What's important to you? Where does prayer fit into that? The Bible has a great verse that reminds Christians not to feel anxious about anything, but to pray about everything. (Philippians chapter 3 verse 6-7)

Being influenced by other people can bring about really good things and really bad things. As you make new friends in secondary school it's important to make sure they don't pressurise you into things you know are wrong. Perhaps think about how you can be an influence.

Daniel's principles meant he ended up in a den full of lions. Christians often have to make hard choices. Daniel put talking to God above everything else and it paid off.

Your Notes:

We were thinking these awesome cartoons are just missing some colour. As you shade them in, perhaps it's a good chance to think about these things, or if appropriate you can pray.
